

Kama Karana Spa invites you to a haven of peace, rejuvenation and tranquility.

Traditional philosophy and ancient knowledge of traditional Balinese healing is widely used to govern our well-being and personal vitality. Our holistic approach of Balinese healing treatments inspired by classical Hindu medical science based on Ayurvedic bible. In order to maintain good health, it is believed that the 'right' energy and positive vibrations must flow freely within the body. Often the stresses of modern life block this free-flowing energy making it essential to rebalance our 'Chakras' and regain health. Our therapeutic massages and treatments are based on this traditional philosophy.

The intuitive and skilled touch of our trained therapists promises to rejuvenate the body, calm the mind and harmonize the senses.

We incorporate natural, health-boosting botanical extracts and formulations into our therapies to bring you sustainable benefits. Several of our wellness products are crafted in-house using traditional recipes.
